Marquee Sports Network to Broadcast Live ACC Football this Fall

Coverage begins Saturday with Boston College at Duke; Chicago Cubs' regional sports network to also add French Open tennis to its live sports offerings

September 17, 2020—As college football ramps up, so does the live sports programming being offered by Marquee Sports Network. Beginning this Saturday with Boston College at Duke at 11am CT, the TV home of the Cubs will air live ACC college football throughout the season. Marquee Sports Network on September 26 at 11am CT will broadcast Georgia Tech at Syracuse.

Depending on the Cubs' post-season schedule, the network could air as many as 17 live ACC football games this fall. Live coverage of Conference USA football is also slated for fall Saturdays.

"We are thrilled to give our viewers more live sports with the addition of college football from the ACC," said Marquee Sports Network GM Mike McCarthy. "With the Cubs set for the playoffs, college football in full swing, and nine straight days of live tennis from the French Open, there will be plenty for Cubs fans and viewers to enjoy this fall and winter."

Marquee will broadcast nine straight days of live tennis from the French Open starting on September 27. On the same day that the Cubs wrap up the regular season against the White Sox, Marquee will bring viewers four hours of action from 4am-8am CT. Live coverage from Roland Garros by way of the Tennis Channel will continue at the same time each day throughout the broadcast run.
